

**Your corporate training partner**

**COMPANY'S PROFILE**

## About us

Eccentrix is the mainstream training services provider in Belgrade for Microsoft, EC-Council, CompTIA, cybersecurity, Citrix, Cisco, VMware and more!

Our mission is to advance the professions by providing skills advancement solutions. Knowledge and expertise are the answer for keeping up with rapid changes and challenges many information technology industries are facing today.

Eccentrix's growth strategy is to build strong relationships with customers and collaborators, based on trust, quality, expertise and professionalism of our services.

## Leading team

**President**

Irena is involved in strategic decisions aiming at the growth of Eccentrix. She's concerned with our customers' satisfaction and believes that success comes through a pleasant work atmosphere in which our employees are valued.

**Executive director**

Boris is our technical expert responsible for valuable organizational and technical support. He aims that Eccentrix is recognized for the reliability and quality of its services. He has more than 30 certifications and more than 15 years of experience in IT.

## Training center

With 500 available courses in our training catalog, Eccentrix is the premium partner in your organization's training needs. We have a versatile and diversified portfolio covering the requirements of today's challenges in information technology.

Eccentrix is using innovative delivery channels. We are offering participants the choice of attending a training online (virtually in real-time), on-site, and in a traditional classroom. We have established a robust platform that allows flexible schedules and that eliminates the need to wait longer for your selected training to begin.
